## Tregaskis Brown Ltd

---

### Accredited Investment Logic Mapping Facilitator

#### Organisation Overview

Tregaskis Brown is a well-established, well-respected management consultancy that has been working at a senior level in the NZ public and private sector since 2002. You'll find we are strongly driven by our values of integrity, service excellence and scrupulous professionalism. Our success is inextricably linked with yours. We never forget it.

Guiding organisations along the path to investing resources wisely is central to much of what we do. Our considerable experience in this area includes:

- Facilitating Investment Logic Mapping for a wide range of clients including most central government agencies, city, district and regional councils and several private sector entities.
- Writing robust, cost effective business cases to support sound investment recommendations
- Providing quality assurance for teams developing complex business cases
- Advising on effective portfolio management

#### Facilitator Profile

Sue knows what it means to be responsible for driving change, particularly in central and local government. Sue is a catalyst for tough conversations and a safe pair of hands for steering challenging problem solving through to resolution. She is known for her expertise in engaging community interest groups and industry in the deep thinking and problem solving associated with regulatory change.

She is a source of expert advice on how environmental management systems work; from development of the legislation to implementation of the systems and decisions integral to its efficient management.

Sue has substantial governance experience, particularly in professional bodies and the not-for-profit sector where she has held leadership roles through significant periods of change.

Sue is;

- Highly skilled in interagency and industry stakeholder engagement
- An experienced facilitator and developer of strategy and business planning
- An accredited ILM facilitator
- An expert negotiator
- Highly experienced in the design and implementation of environmental regulation
- An experienced leader with a deep understanding of executive management and organisational change

## About Investment Management

The Investment Management Standard (IMS) is a collection of simple, common sense ideas and practices that help organisations to direct resources to deliver the best outcomes.

The standard has been evolving since 2004 as a response to investment practices that were increasingly complex but failed to focus on the real need for an investment or the benefits that would be delivered. Its uses have expanded to the point that it is now a system that can support the primary investment decision-making functions of any organisation on multiple levels, from a decision about a single investment initiative to whole-of-organisation decisions that refocus the organisation's direction. For more information on how IMS can be used to aid your organisation, go to [www.dtf.vic.gov.au](http://www.dtf.vic.gov.au).

## Costs

Note: As part of the engagement, you might choose to do one or all workshops for the particular practise. Consult the facilitator and make yourself familiar with the [investment management practises](#). If any prior IMS workshops have been developed on your investment, make sure you inform the facilitator.

Shape New Investments	Cost (exclusive of GST)
