## Jeremy Smart, Smart Logic Mapping

### Accredited Investment Management Facilitator

Jeremy Smart provides workshop facilitation services consistent with the Victorian Government's Investment Management Standard. During the workshop facilitation process, the aim is to:

- Ensure initiatives being considered are conceptually sound and worthy of further consideration.
- Improve the likelihood of successful funding outcomes.
- Improve the likelihood that the intended benefits will ultimately be delivered.

The three workshops include:

1. **Problem Definition** where participants focus on the key challenges, issues and threats facing the community or government that compel action to be taken and the evidence to support these claims.
2. **Benefit Definition** involving discussion of the key performance indicators required to enable evaluation of the project, program or policy.
3. **Response Options** where clarification is sought as to which strategic direction a proposal should take. This is particularly important for high value, high risk proposals involving infrastructure.

More information on each of these workshops is available at [logicmapping.com](http://logicmapping.com), including a description of the requirements of each workshop and sample investment logic maps.

### Facilitator Profile

Whilst a Senior Analyst with the Department of Treasury and Finance, Jeremy Smart was instrumental in the creation of the Investment Management Standard (IMS) and since leaving the department in 2007, he has continued contributing to its evolution and adoption through facilitator forums and professional practise.

He has extensive experience in workshop facilitation, having:

- Facilitated almost 2000 IMS workshops.
- Undertaken over 250 formal reviews for facilitators seeking accreditation.
- Been involved in the training of more than 2,000 people across the public and private sector.
- Been central to the adoption of the Standard by the New Zealand government across all portfolios.

Jeremy has developed a reputation across the Victorian public sector as a one of the most experienced and consistent facilitators and can provide department or agency specific references if requested. His clients have included:

- All Victorian departments and key agencies.
- Departments across Queensland, New South Wales, Western Australia and New Zealand.
- Major Australian corporates and the non-profit sector.
- Metropolitan and regional local councils.
