30+ years

### Organisation Overview

GHD is one of the world's leading engineering, architecture and environmental consulting companies. Wholly owned by its people, GHD is focused exclusively on client success. Our network of over 10,000 professionals collaborate to deliver sustainable outcomes for communities and clients in the global markets of energy and resources, water, environment, property and buildings, and transportation. GHD's Advisory group provides a range of professional services to support improvements to the efficiency and effectiveness of infrastructure and service provision. Our experienced consultants include economists, policy and regulatory advisors, commercial and management professionals with specific understanding of infrastructure. Our clients include regulators and suppliers, government and private enterprises, and industry.

### Facilitator Profile

Tomas is an experienced infrastructure development practitioner with functional experience in strategy, infrastructure planning, options assessment and economic evaluation, policy development, business case development and commercial assessment. He brings practical management experience and is accustomed to working closely with clients at all levels.

Tomas has hands-on experience in driving/supporting development of 1st tier infrastructure business cases applying advanced techniques such as adaptive planning and options development, real options assessment and application of Investment Management Standard © process.

In his operation role Tomas manages P&L for the Advisory team in Australia and New Zealand with primary focus is on driving growth, sustainability, value creation, and staff development within the region.
